

We explore cities and winding country roads.
Corners hugged and throttles revved.
Windows down, radio loud, no particular place to go.
Always forward, defying the wind. I am the embodiment of Jinba Ittai.
You, the heart behind the wheel. We were always meant to connect,
like a horse and rider, car and driver as one.

Together, we are stronger.
We have a bond that words alone cannot describe.
We never drive alone. We drive together.

MADE IN MUKAINADA

Mazda began its journey as a manufacturer of cork products, in Mukainada, Hiroshima and rose to the challenges of rebuilding itself and our community after World War II. Since then, we have not only accepted challenges, we have been driven by them. Mukainada is not only our birthplace, it is our inspiration. Throughout our history we have developed innovations that others deemed impossible, from the rotary engine to Skyactiv Technology and beyond.

KODO: SOUL OF MOTION

Creating a sense of motion, even at a standstill— this is the essence of Mazda's KODO: Soul of Motion design philosophy. It is our designer's way to give each model its own personality. With curves and angles so striking, they command your attention through a mere glance. Exciting you by the anticipation of what's to come and urging you to get behind the wheel and experience the unique energy that can only come from a Mazda. Eliciting this kind of instant emotional response requires a human touch. Created for humans by humans.

INTRODUCING THE 2022 MAZDA2

Engineered and crafted with utmost care to the tiniest detail, the 2022 Mazda2 makes an impression both visually and from a driver's perspective. Its sporty shape and striking colours match the sophisticated handcrafted interior, while every feature is thoughtfully built around you, the driver. Our designers' emotional approach creates a feeling of complete oneness with the Mazda2, giving way to an effortless and engaging driving experience.

BEAUTY ON WHEELS

The 2022 Mazda2 is both agile and stylish. Our Kodo: Soul of Motion design language has created a car with a playful, yet elegant spirit. The bold exterior shape creates a sense of vitality, elevating motion into an art form. Its solid stance, muscular lines and overall look create a feeling of forward momentum, inviting you to get behind the wheel.

 *picture shows an accessorised car

FRONT

REAR

LED HEADLAMPS

Sharply angled, they create a striking appearance and provide piercing light even on the darkest of roads.

SHARK FIN ANTENNA

The shark fin antenna enhances the beauty of KODO design, adding more vitality to car's styling.

FRONT GRILLE

The new front grille completes the KODO design, adding a sense of confidence to the overall look.

PRIVACY GLASS

Provides an extra level of sophistication by enhancing the overall looks and offers an extra level of security.

PLATINUM QUARTZ

The newly introduced Platinum Quartz paint adds a more elegant touch to the KODO design and puts the shapes of the car into the right light anywhere you drive.

SUPERIOR CRAFTSMANSHIP

Our craftsmen are called 'Takumi' – a name which symbolises dexterity and precision, representing a long tradition of master craftsmanship in Japan. These are the artisans who hone their skills for years, even decades, to achieve mastery. Their passion, patience and dedication to their craft is poured into every Mazda through the human touch – something no computer can replicate. Every tiny detail inside the 2022 Mazda2 is a testament to the Takumi's proficiency, deepening the car and driver connection to the point of feeling as one.

TO THE LAST STITCH

Nothing quite tempts the senses like touch. The contact of soft textures, solid stitching and a form that embraces you. Every inch of our carefully constructed upholstery is designed to make your driving experience better.

COMFORT AWAITS

The 2022 Mazda2 is built to match your needs and uplift your spirit, with a balanced mix of both functional and design features. Because you should feel comfortable in any situation, features like the Cruise Control, Heated Steering Wheel, Rear View Camera and Lane Keep Assist, all contribute to a heightened state of relaxation and confidence.

NEW DESIGN INTERIOR

Adds an extra touch of distinctive style while enhancing the comfort for both driver and passengers.

LANE KEEP ASSIST

Promotes safer driving by providing appropriate steering assistance. Lane Keep Assist uses a windshield-mounted camera to recognize lane-markings on the road and activates at speeds above 60 km/h.

AUTO A/C

Set once to keep your climate the way you like it at all times.

REAR VIEW CAMERA

The rear-view camera lets you see exactly where you are going when reversing rather than simply guessing. Parallel parking has never been easier.

CONNECTING CAR AND DRIVER

Every Mazda aspires to the same single goal—oneness between the vehicle and you, the driver. We call this unique feeling Jinba Ittai. When you experience this seamless connection, your senses become heightened. You engage with the moment and leave all distractions behind. You feel energised and rejuvenated.

EFFORTLESS CONNECTIVITY

In the driver-centric cabin of the 2022 Mazda2, every element is situated within easy reach, so you can stay better focused on the road ahead. A completely synchronised environment is ensured by the effortless control of the 7" colour touch-screen display and the intuitive HMI Commander. Moreover, synchronising your mobile phone, accessing internet radio or your favorite music via Android Auto or the Wireless Apple CarPlay, is now easier than ever through the Mazda Connect infotainment system.

POWER AND EFFICIENCY

Improved performance. More efficiency. Enhanced enjoyment. This is what our latest Skyactiv and Mild Hybrid engines in the 2022 Mazda2 are designed to deliver. We believe that excellent fuel efficiency should never come at the cost of performance. So, our driving-obsessed engineers found a way to enhance both. Every aspect of the vehicle is engineered to maximise driving dynamics and efficiency: from body construction and engine technology, to the chassis and transmission.

MAZDA M HYBRID – EFFICIENT AND FUN TO DRIVE

Mazda M Hybrid is our innovative evolution of hybrid car technology. By capturing the energy that is normally wasted during braking, the M Hybrid uses that energy to assist the engine and to power the car's electrical system. The result is a smooth acceleration, natural transitions when braking or accelerating and an overall fun-to-drive feel. All while saving fuel in the process.

CONFIDENCE IN EVERY DIRECTION

A suite of i-Activsense safety features and sophisticated safety innovations alert you to hazards and help you avoid collisions—or lessen their impact. New-generation features such as with traction and control system Blind Spot Monitoring with Rear Cross Traffic Alert, Parking Sensors or the Advanced Smart City Brake Support help improve your visibility and awareness of the road.

COLOUR THAT MOVES YOU

The colours of the 2022 Mazda2 are one of the first things that will strike you, such as our exclusive Platinum Quartz paint. A daring mixture of bright aluminum flakes and opaque pigment, it illuminates the beautiful characteristics of Kodo design, bringing it to life in a whole new way.
